Administrative/Engineer
Fire Extinguishers

REFERENCE: [redacted] 149 dated 11 February 1954 25X1A6c

1. To provide adequate protection for a three-bedroom house, it is recommended that one each of the following be installed in each house:

Water Stirrup Type Fire Extinguisher - 3 gal. capacity
CO_2 Fire Extinguisher - 16 lb. capacity
Pyrene Fire Extinguisher - 1 qt. capacity
Soda Acid Fire Extinguisher (Foamite) - 1 gal. capacity.

2. Instructions should be attached to each extinguisher on how to use and type fire to be used on.
